Description

Reinventing California to Work For Everyone.

We work alongside our partners to transform public systems and shift investments to achieve racial equity.

We are a public policy change organization rooted in the civil rights movement. We engineer large-scale systems change to remedy inequality, expand opportunity and open paths to upward mobility. Our goal is that members of all communities have the safety, opportunity and health they need to thrive. With our strong ties to diverse communities, unlikely alliances, policy and legal expertise, and creative use of technology, we and our partners have won over \$15 billion to extend opportunity. Whether it is to build 150 schools, transform the City of Los Angeles' approach to its gang epidemic, or revolutionize the use of data in policymaking, Advancement Project evens the odds for communities striving to attain equal footing and equal treatment.
