## Description

---

Why Choose E.Carver County Schools?

We are replacing the factory model of education by asking the question, "What's best for the academic and social growth of each learner?" Our students are given the power to shape their education, supported by high academic standards and guided by caring and knowledgeable staff. Personalized learning created learners who are motivated and excited about coming to school. Students have opportunities to develop passion projects where they can make connections between school and topics that they care about. High-achieving students are never held back, but are encouraged to go as far and as fast as they can. Students who need additional support can choose to learn in the ways that work best for them. We are student-centered with teaching practices that adapt to the student. Eastern Carver County Schools is a model for a 21 century education.

### Elementary School

More than 900 elementary students district-wide work above grade level - because we challenge all students their learning level, removing artificial barriers to authentic learning..

### Middle School

Students are carefully guided as they explore their evolving interests and build independence. Our middle schools go beyond the core curriculum with more choices to suit their individuality and their interests.

### High School

Three high schools allows each student to be in the limelight. While other high schools in our area

have been expanding beyond 2,500 students, residents of Eastern Carver County Schools voted for smaller high schools - doubling the opportunities for your student while maintaining small-school environments.
