Description

Edison State College is a vibrant, open-door, baccalaureate degree granting public organization dedicated to educational excellence. The mission of Edison State College is to inspire learning; prepare a diverse population for creative and responsible participation in a global society; and serve as a leader for intellectual, economic, and cultural awareness in the community.

At Edison, learning is a creative enterprise designed to encourage each student's independence, intellectual gifts and thirst for knowledge. Our dedicated faculty teach from the heart, in a caring environment that fosters a sense of adventure, collaboration and respect for others. Located on the gulf coast in southwest Florida, Edison was established in 1962, and is the area's oldest and fastest growing state college.

As one of Florida's State Colleges, Edison delivers learning from collegiate charter high schools through bachelor's degrees in a wide array of venues and disciplines. Students may pursue one of more than 60 associate degrees and 10 bachelor degrees on our Charlotte, Lee or Collier campuses, the Hendry Glades Center or through Edison Online. Each of our campuses is uniquely positioned to address the needs of its community and the voice and spirit of its individual counties.
