Description

We Are Leading the Way

Relying on the skill and expertise of more than 3,600 university and community physicians and advanced practitioners, including more than 600 resident physicians, Yale-New Haven Hospital (YNHH) provides comprehensive, multidisciplinary, family-focused care in more than 100 medical specialty areas. As the primary teaching hospital for Yale School of Medicine (YSM), we have supervised physician residents and fellows supporting our medical staff by providing around-the-clock coverage and insightful, research-supported patient care.

Yale-New Haven Hospital regularly ranks among the best hospitals in the U.S. and is accredited by The Joint Commission. In conjunction with YSM and Yale Cancer Center, YNHH is nationally recognized for its commitment to teaching and clinical research. The National Institutes of Health has recognized many of our medical care and research units for excellence, including our Cancer Prevention Research Unit, Cancer Information Service Center, Comprehensive Cancer Service, Digestive Disease Research Center, Child Health Research Center, Children's and Adults' Clinical Research Centers, and Claude D. Pepper Older Americans Independence Center.

In addition to providing quality medical care to patients and families, Yale-New Haven Hospital is the second largest employer in the New Haven area with more than 7,000 employees. We are also the flagship member of Yale New Haven Health System.
