## Description

---

Enterprise Products Partners L.P. provides midstream energy services to producers and consumers of natural gas, natural gas liquids (NGLs), crude oil, refined products, and petrochemicals in the United States, Canada, and Gulf of Mexico. Its NGL Pipelines & Services segment engages in processing and marketing ethane, propane, normal butane, isobutene, and natural gasoline.

This segment also operates NGL pipelines aggregating approximately 16,650 miles; NGL and related product terminal and storage facilities with approximately 156 million barrels of net usable storage capacity; and fractionation plants. The company's Onshore Natural Gas Pipelines & Services segment operates approximately 20,200 miles of onshore natural gas pipeline systems to gather and transport natural gas in Colorado, Louisiana, New Mexico, Texas, and Wyoming. This segment also operates salt dome natural gas storage facilities; and markets natural gas. Its Onshore Crude Oil Pipelines & Services segment operates approximately 5,250 miles of onshore crude oil pipelines to gather and transport crude oil to refineries, centralized storage terminals, and connecting pipelines primarily in New Mexico, Oklahoma, and Texas.

This segment also operates above-ground storage tanks, which have a total capacity of 12 million barrels; and markets crude oil. The company's Offshore Pipelines & Services segment operates approximately 1,330 miles of offshore natural gas pipelines, approximately 980 miles of offshore crude oil pipelines, and 6 offshore hub platforms in the northern Gulf of Mexico offshore Texas, Louisiana, Mississippi, and Alabama.

Its Petrochemical & Refined Products Services segment operates butane isomerization facility and related pipeline system; an octane enhancement facility; isobutylene production facilities; and refined products pipelines; and engages in the marine transportation, and fractionation and marketing of propylene. The company was founded in 1968 and is based in Houston, Texas.
